About Us

NB Premium Engineering Services is a reputable and customer-focused engineering company with a proven track record of delivering high-quality solutions to meet diverse industrial needs. We specialize in providing innovative and reliable power solutions to our clients. In line with our commitment to excellence.

OUR VISION

To emerge as the epitome of effectiveness, reliability, and excellence in service provision, not only within Africa but also on a global scale. We aspire to transcend boundaries and establish ourselves as a prominent and trusted service provider that sets new standards of quality and innovation.

OUR MISSION

To deliver contemporary and sustainable solutions to our clients within the industrial sector. Through our expertise, dedication, and innovative approach, we aim to address the evolving needs of our clients while contributing to the advancement and sustainability of their operations.

OUR CORE VALUES

At NB Premium Engineering Services (NBPES), our core values embody the essence of who we are as a team and the principles that guide our actions:

1. Customer Focus
2. Growth-Oriented, Responsiveness
3. Collaboration
4. Transparency and Trust
5. Solution-Oriented

WHAT WE DO

Specializing in the provision of reliable power solutions, we are proud dealers of esteemed brands such as KOHLER SDMO, CCEC Cummins, and PERKINS generator sets. Our commitment extends to delivering steadfast services to a wide range of industries, which include:

- Electrical Engineering and consulting
- Sales of Electrical accessories
- Generator sets sales and services
- Facility Management – electric systems
- Industrial Automation
- Design and build of Electrical Heavy Duty Industrial Panels
- Termination of High, Medium and Low Voltage
- Design and build of protective Earthing System

BUSINESS OVERVIEW

Product Offering

Our range of diesel and gas generators comes in various capacities to cater to different power needs.

These generators are designed to operate seamlessly in diverse environments and are equipped with advanced features to ensure optimal performance and minimal downtime. Additionally, they adhere to strict emission standards, promoting environmentally responsible power generation.

Partners

Our partnership with Kohler SDMO and DIY Power allows us to present their distinguished line of generator sets, known for their superior engineering, advanced technology, and global reliability.

Quality Services

Our guiding philosophy revolves around a customer-centric approach that resonates through every facet of our service provision. We take immense pride in offering a comprehensive service package that extends beyond the ordinary, underscoring our commitment to supporting our valued customers at every stage of their journey.

WHY CHOOSE US

1

QUALITY ASSURANCE

We are committed to delivering top-quality products that meet the highest industry standards.

KOHLER®

2

EXPERTISE

Our team of experienced professionals can assist in selecting the right generator set based on your specific requirements.

3

CUSTOMER-CENTRIC APPROACH

We prioritize understanding our clients' needs and providing tailored solutions that best suit their operational demands.

4

TIMELY DELIVERY

We ensure prompt delivery and installation of generator sets to minimize disruptions to your operations.

OUR PROCESS

- **INITIAL CONSULTATION:**

We will schedule a meeting to understand your specific power needs and operational requirements.

- **GENERATOR SELECTION:**

Our engineering team will recommend a suitable generator set based on the information gathered during the consultation.

- **CUSTOMIZATION:**

The selected generator set will be customized to match your load demands, facility layout, and any specific requirements.

- **INSTALLATION:**

Our expert technicians will install the generator set, ensuring proper integration with your existing power infrastructure.

- **TRAINING:**

We will provide training for your staff to ensure they are familiar with the operation and maintenance of the generator set.

- **ONGOING SUPPORT:**

Our team will remain available to provide ongoing maintenance and support, ensuring the generator set continues to perform optimally.

- **PRICING AND TERMS:**

We understand that pricing is a crucial aspect of any partnership. Our team will work closely with you to develop competitive price and also flexible payment terms can be discussed based on the volume of generators ordered.
